Career Objective

To pursue a career in the field of technology by keeping up pace with the latest trends and working dynamically for the growth of organization. In short, seeking a position, where I can get hands-on experience on the state-of-the-art techniques for industrial-strength designs and exposure towards incorporating new research directions into the industrial context.

Professional Experience

- September, 2021–Present **Research and Engineering Scientist** at Zoho Corporation, India. The main duties and responsibilities are to work with the engineering teams in developing technological innovations for products, independently drafting technical specifications describing the system design and technology, interacting with the engineering teams to identify potential areas of innovation and engaging in independent research and study to learn technology as required.
- May, 2018–October, 2020 **Post Doctoral Fellow (PDF)** at the Department of Electrical Engineering and Computer Science (EECS), Indian Institute of Science Education and Research (IISER), Bhopal, India.

Research Area of Interests

- (2021–Present) Currently, I am focusing on the programming language research domain.
- (2018–2020) My post doctoral research work focuses mainly on the applied inter-disciplinary areas of **Software Requirements Engineering** (*User Stories & SRS Specifications*), **Natural Language Processing (NLP)**, **Word Embeddings** (*Word2Vec, FastText, Glove & BERT*) and *Machine Learning*. Related to these aspects, we have designed and developed efficient NLP and word embedding based approaches that are helpful to extract *ambiguous words (two different meaning for the same word)*, *glossaries (key terms)* and to *cluster the extracted glossaries* for large-sized natural language documents. The above mentioned used approaches are used to improve the quality of the software requirements written in natural language.
- (2010–2018) The sub-domain areas of software engineering including the **Software Service Effort Estimation, Testing** of Service-Oriented Architecture (SOA) Systems and **Program Analysis** of Aspect-Oriented Programs (AOP) have been explored as a part of my **doctoral** and **masters** research work.

Education

- 2013–2018 **Ph.D. in Computer Science and Engineering**, *Indian Institute of Technology (Indian School of Mines), IIT (ISM), Dhanbad, Jharkhand, India.*
- 2010–2012 **Master of Technology (M. Tech) in Computer Science and Engineering**, *Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, Odisha, India.*
- 2005–2009 **Bachelor of Technology (B. Tech) in Computer Science and Engineering**, *Biju Patnaik University of Technology (BPUT), Rourkela, Odisha, India.*
- 2005 **Higher Secondary**, *Kendriya Vidyalaya, Puri, Odisha, India.*

2003 **Secondary**, Kendriya Vidyalaya, Puri, Odisha, India.

Doctoral Thesis

- Title *Efficient Cost Estimation and Testing Approaches for SOA Systems*
- Supervisor Prof. Chiranjeev Kumar, Department of Computer Science and Engineering, IIT (ISM), Dhanbad, Jharkhand, India
- Short Thesis Description The main objective is to study, design and develop efficient cost estimation and testing approaches for SOA systems. In general, the cost/effort estimation and testing of SOA systems is different from that of traditional software. One of the prominent reason for this could be visualized from the architectural difference of SOA systems when compared to the traditional software development. Additionally, some recent empirical studies pointed out that distributed processing is more complicated than the non-distributed processing. As any form loose coupling make tasks easier, but increases complexity. In the literature, there is a lack of significant work about cost and effort estimation of SOA systems. Addressing the above mentioned issues, two novel effort estimation approaches have been developed by utilizing statistics and machine learning. The first approach deals in utilizing statistical based approach in estimating the development effort of SOA systems from the implication of new proposed metrics and regression models based on some past project data. The second approach deals in employing machine learning based technique. The proposed structure employs an adaptive filter by combining the insights of signals theory with empirical research to find a recommendation scheme for SOA system effort estimation. To the best of our knowledge, this is the first work in literature to solve the problem by adhering basic principles of SOA system design with a proper validation mean. Furthermore, the current testing approaches of SOA systems are inadequate in addressing the complexities associated with the SOA systems. Additionally, the current testing techniques of SOA systems are unable to assure the desired level of trust, which may create a barrier between the service providers and the end users. Therefore, we inspect an abstract formulation of this problem to identify faulty business processes using minimum number of tests for improving the testing effort and fostering trust between the service providers and end users.

Master Thesis

- Title *Dynamic Slicing of Concurrent Aspect-oriented Programs*
- Supervisor Dr. Abhishek Ray (Associate Professor), School of Computer Engineering, Kiit University, Bhubaneswar, Odisha, India
- Short Thesis Description The main *idea* is to deal with *dynamic slicing of concurrent aspect-oriented programs*. In this regard, a dependence based intermediate program representation known as Concurrent Aspect-oriented System Dependence Graph (CASDG) has been proposed to represent concurrent aspect-oriented programs. Moreover, an efficient *dynamic slicing algorithm* has been proposed and implemented for computing the *dynamic slices* of the concurrent aspect-oriented programs, appropriately during the runtime. The CASDG is modeled by the main program together with all the *methods*, *constructors*, *used* and *defined* variables present in the *non-aspect code* and all the *pointcuts*, *advices* and *introductions* exist in the *aspect code*. The proposed dynamic slicing algorithm is an extended version of Node Marking Dynamic Slicing (NMDS) algorithm for concurrent object-oriented programs, which is primarily based on *marking* and *un-marking* of the executed nodes in the CASDG.

Achievements, Awards and Honors

- July, 2023 **Sub-Reviewer**, 20th India Council International Conference (INDICON'23), Warangal, India.
- August, 2022 **Sub-Reviewer**, 3rd International Conference on Advances in Distributed Computing and Machine Learning (ICADCML'22), Warangal, India.
- August, 2022 **Publicity Chair**, International Conference on Computing, Communication and Learning (COCOLE'22), Warangal, India.

- February, 2021 **Sub-Reviewer**, *International Conference On VLSI & Microwave and Wireless Technologies (ICVMWT'21)*, Allahabad University, India.
- October, 2020 **Invited Speaker**, *FDP on Scientific Writing using Latex*, organized by BBGSU, Rajouri, J&K, India.
- May, 2018 - October, 2020 **Institute Post Doctoral Fellowship**, *selected in merit to avail full time institute post doctoral fellowship at the Department of Electrical Engineering and Computer Science (EECS), Indian Institute of Science Engineering and Research (IISER)*, Bhopal, Madhya Pradesh, India.
- May, 2018 **My PhD Thesis is indexed in Association for Computing Machinery's Special Interest Group on Software Engineering (ACM SIGSOFT)**, *list of PhD Dissertations*, in the area of Software Engineering.
- March, 2018 **Invited Speaker**, *Scientific Writing using Latex - A Technical Development Program (TDP)*, *sponsored by a student chapter*, The International Society for Optics and Photonics (SPIE) organized by, Department of Electronics Engineering, IIT (ISM), Dhanbad.
- 19th March, 2018 **Sucessfully Defended PhD Thesis.**
- December, 2017 **Winter School in Software Engineering (WSSE'2017)**, *Selected in merit to attend Winter School in Software Engineering out of 350 participants (22/350)*, organized by Tata Research Development and Design Centre (TRDDC), Pune, Maharashtra, India and sponsored by Association for Computing Machinery - India SOFTWARE Engineering community (ACM-ISOFT).
- 2014-2018 **Ph.D. Student Representative**, *Computer Science and Engineering Society (CSES Society), Department of Computer Science and Engineering, IIT(ISM), Dhanbad.*
- 2013–2018 **ISM - JRF Fellowship**, *selected in merit to avail Scholarship, funded by Government of India Government of India (GOI), Ministry of Human Resource and Development (MHRD)*, on the basis of all India written examination and interview conducted by IIT (ISM), Dhanbad, Jharkhand, India.
- 2005 **AISSCE - 2005**, *secured hightest mark (89/100) in biology*, out of 39 students, of Kendriya Vidyalaya, Puri, Odisha, India.
- 2004 **House Captain**, *lead Raman House (a Student Activity) with the position of house captain*, at Kendriya Vidyalaya, Puri, Odisha, India.
- 2003 **KVS Regional Science Exhibition**, *honored with certificate of successful participation*, held at Kendriya Vidyalaya, No. 3, Mancheswar, Bhubaneswar, Odisha, India.
- 2003 **National Trekking and Adventure Camp**, *participated and successfully completed the trekking and adventure camp organized by Directorate of Mountaineering and Allied Sports Manali, Government of Himachal Pradesh*, held at Himachal Pradesh, India.
- 2003 **KVS Regional Level Games and Sports Meet**, *participated and bagged runners up position in men's field hockey*, held at Kendriya Vidyalaya, No. 1, Bhubaneswar, Odisha, India.
- 2002 **Fifth National Science Olympiad**, *honored with certificate of successful participation*, qualified first round (level 1), held on 30th January, 2003 at more than 2050 centres in India and Gulf.
- 2001 **The Green Olympiad**, *honored with certificate of participation*, sponsored by the ministry of Environment and Forests, Government of India (GOI).

Skill Sets

Languages: **C, C++, R, HTML, Core Java, Swift, Python and AspectJ.**

Operating **Windows and Linux.**

Systems:

Model **NuSMV and PRISM.**
Checkers:
Database: **MySQL.**
Packages: **Microsoft Office and LibreOffice.**
Typesetting **L^AT_EX.**
System:
Scripting **Java Script and VB Script.**
Languages:
Applications: **Spreadsheet, IBM Rational Software Architect, Matlab.**
Visualization **SPSS, Corel Draw, Origin, Edraw Max, Dia, yEd, ORA and Pajek.**
Tools:
Word **Word2Vec, Glove, BERT, FastText.**
Embeddings:

Teaching Assistantships

- ECS202 **Data Structures and Algorithms**, BS-MS 2nd Year (Winter 2020) at IISER Bhopal.
ECS307 **Theory of Computation**, BS-MS 3rd Year (Monsoon 2019) at IISER Bhopal.
ECS302 **Introduction to Software Modeling and Verification**, (Lab Session) using New Symbolic Model Verifier (NuSMV) at IISER Bhopal.
CSC16205 **Database Management Systems Lab**, B. Tech 6th Semester, (Winter 2016-17) at IIT (ISM), Dhanbad.
CSE11301 **C Programming Lab**, B. Tech 1st Semester, (Monsoon 2013, Winter 2015 and 2016) at IIT (ISM), Dhanbad.
CSC15204 **Software Engineering Lab**, B. Tech 5th Semester, (Monsoon 2014, Monsoon 2015 and 7th Semester, Monsoon 2016) at IIT (ISM), Dhanbad.
CSC14202 **Algorithm Design and Analysis Lab**, B. Tech 4th Semester, (Winter 2014) at IIT (ISM), Dhanbad.
CSC13202 **Data Structures Lab**, B. Tech 3rd Semester, (Monsoon 2013), at IIT (ISM), Dhanbad.

Professional Activities/Service

- August, 2022 **Reviewer**, *Automation in Construction*, Elsevier.
- June, 2022 **Reviewer**, *Frontiers in Psychology*, (section Health Psychology).
- May, 2022 **Publicity Chair**, *First International Conference on Computing, Communication and Learning (COCOLE)*, NIT Warangal, India.
- August, 2021 **Reviewer**, *Clinical eHealth*, Elsevier.
- July, 2021 **Reviewer**, *Expert Systems With Applications*, Elsevier.
- March, 2021 **Publicity Co-Chair**, *15th Innovations in Software Engineering Conference (ISEC 2022)*, DA-IICT Gandhinagar, India.
- January, 2021 **Reviewer**, *Information Fusion*, Elsevier.
- January, 2021 **Reviewer**, *Journal of Supercomputing*, Springer.
- January, 2020 **Volunteer**, *The Fourth Paradigm : From Data to Discovery*, Bhopal, India.
- February, 2019 **Reviewer**, *Future Generation Computer Systems (FGCS)*, Elsevier.
- December, 2018 **Reviewer**, *Arabian Journal for Science and Engineering (AJSE)*, Springer.
- November, 2018 **Reviewer**, *Journal of Parallel and Distributed Computing (JPDC)*, Elsevier.
- February, 2018 **Ad-Hoc Reviewer**, *International Journal of Fog Computing (IJFC)*, IGI Global.
- January, 2017 **Ad-Hoc Reviewer**, *International Journal of Web Services Research (IJWSR)*, IGI Global.
- December, 2016 **Reviewer**, *Software: Practice and Experience (SPE)*, Wiley.
- November, 2016 **Guest Editor**, *Special Issue On: Scalable Computing for Knowledge Discovery, International Journal of Knowledge Discovery on Bioinformatics (IJKDB)*, IGI Global.
- June, 2016 **Invited Reviewer**, *International Journal of Computers and Applications*, Taylor & Francis.
- August, 2016 **Invited Reviewer**, *International Journal of Rough Sets and Data Analysis (IJRSDA)*, IGI Global.
- March, 2016 **Student Volunteer**, *3rd IEEE International Conference on Recent Advances in Information Technology (RAIT)*, Dhanbad, Jharkhand, India.
- December, 2015 **Invited Reviewer**, *3rd IEEE International Conference on Computing for Sustainable Global Development (INDIACom)*, New Delhi, India.
- June, 2014 **External Reviewer**, *2nd IEEE International Conference on Systems and Informatics (ICSAI)*, Shanghai, China.
- March, 2014 **Student Volunteer**, *2nd International Conference on Recent Advances in Information Technology (RAIT)*, Dhanbad, India.
- February, 2011 **Student Volunteer**, *7th International Conference on Distributed Computing and Information Technology (ICDCIT)*, Bhubaneswar, India.

Workshops and Short Term Courses Attended

- 27th February, 2020 **Attended 1 day workshop co-located at the 13th Innovations in Software Engineering Conference (ISEC 2020)**, on “Software Engineering for Artificial Intelligence”, organized by Indian Institute of Information Technology, Design and Manufacturing (IIITDM), Jabalpur, Madhya Pradesh, India.
- 11–16, December, 2017 **Attended 6 days winter school sponsored by Association for Computing Machinery, India SOFTWARE Engineering community (ACM-ISOFTE)**, on “Winter School in Software Engineering (WSSE - 2017)”, organized by Tata Research Development and Design Centre (TRDDC), Pune, Maharashtra, India.
- 09–13, February, 2017 **Attended 5 days short term course sponsored by Technical Education Quality Improvement Programme - II (TEQIP - II)**, on “Fundamental Algorithms: Design and Analysis”, organized by Department of Mathematics, Indian Institute of Technology, Kharagpur, West Bengal, India.
- 19–23, August, 2015 **Attended 5 days short term course**, on “Network Protocols and their Simulation using NS-2/NS-3”, organized by Department of Computer Science & Engineering, Indian School of Mines, Dhanbad, Jharkhand, India.
- 14th February, 2014 **Attended 1 day workshop**, on “Intellectual Property Rights, under TEQIP-II Initiative”, organized by Indian School of Mines, Dhanbad, Jharkhand, India.
- 12–14, May, 2014 **Attended 3 days workshop**, on “Recent Trends in Software Testing (RTST-2014)”, organized by Department of Computer Science & Engineering, National Institute of Technology, Rourkela, Odisha, India.
- 18–25, March, 2013 **Attended 7 days professional skill development programme**, on “Linux Environment”, organized by Department of Computer Science & Engineering, Indian School of Mines, Dhanbad, Jharkhand, India.
